Speak with a staff member for more details, all sales are final

Cannabidiol (better known as “CBD”) is one of the main therapeutically effective cannabinoids found in cannabis. Unlike its psychoactive cousin THC, CBD can relieve pain and other symptoms without making you feel “high.” CBD products are produced from hemp oil, which contains only trace amounts of THC, meaning it is regulated as a hemp product rather than as normal medical marijuana. All full spectrum hemp CBD products contain up to 0.3% THC or less.

- CBD Drip Sublingual/Vapor Oil GOLD (17-mg CBD)..... \$11**
